

TWELVE OAKS FARM

is Going Green!

We are proud to be doing our part in helping the environment. In 2014 we installed our own biomass system, which means we produce all our own heat energy by burning woodchips, a renewable resource instead of fossil fuels.

We have also installed 50kw solar panels which help us produce our own electricity.

We also have our own wind turbine, helping reduce the drain on the environment.

Plenty to do in and around Twelve Oaks ... From Moor to Sea!

Stover Park

Fishing ...

Twelve Oaks provide two well stocked lakes for your coarse fishing enjoyment.

Upper Lake provides mixed species fishing for Roach, Perch, Carp and Tench, with Carp weights into double figures.

It's time for Twelve Oaks ...

Twelve Oaks Farm, a working farm of nearly 250 acres, specialising in Charolais beef cattle, is bordered by the River Teign and on the edge of the village of Teigngrace.

This lovely and popular part of South Devon has much to offer the holiday visitor with glorious beaches, meandering estuaries and some very pretty countryside. Also within easy striking distance is the rugged expanse of Dartmoor its wild beauty changing colour with the varying seasons.

Set in quiet rural surroundings there is no main road outside the site, leaving you to enjoy a peaceful sleep and reassuring you of road safety for the children.
